Short Funding Appeal Version

Hope for Africa Mission seeks partners to support the Continental Leadership Conference 2026, bringing together leaders from 35 African nations to develop a continental strategy for mission growth, leadership development, accountability, community transformation, and outreach to unreached communities.

The conference will produce a Continental Strategic Plan (2027-2030), national operational plans, leadership development frameworks, and sustainable community development initiatives that will strengthen mission impact across Africa.

We invite donors, churches, foundations, NGOs, corporate sponsors, and development agencies to invest in this strategic gathering and help equip leaders who are transforming communities throughout the continent.

Together, we can strengthen mission impact, develop future leaders, and advance sustainable transformation across Africa.
